The top part of this chart shows the number of students in each grade that were counted as part of the 3rd Friday Count in September.

The bottom of the chart shows the number of students who are enrolled in our RVA partnership and are added to our count. Next is the total number of students open enrolled out (this includes students from past years as well as the additions for 2026-27.) This number is added to our count. Lastly, there is the number of open enrolled students in (this includes students from past years as well as the additions for 2026-27.) This number is subtracted from the count.

School districts are paid by the state for the number of students who are residents of their school district. $190 + 2 + 113 - 61 = 244$ The FTE is 240 because 3 and 4 year olds are not counted as full-time students.
