- C. Ride only assigned buses. Written request may be accepted as an exception to this rule. **Notes signed from BOTH families stating who wants to go where should be made first to the Principal for approval. All notes must have a current date and the child(ren's) name(s) will**

- D. Board and disembark only at assigned locations. Again, only a signed parent permission slip, approved by the Principal, will be accepted exception.
- E. Provide the bus driver and the school with a certificate or statement from a medical doctor to substantiate a handicapping condition, which would require special treatment or provisions. A permanent handicap will require only an initial statement, while a temporary handicap will require one annually. Parents are responsible for obtaining the statement and forwarding it to the Superintendent's office.
- F. Only the bus rules and regulations issued by the School Board and Administration.

4-Year Old Kindergarten

If preschool parents accept transportation for their child from preschool to the child's home or an alternate place, they will guarantee that an adult be visible to the bus driver at the designated bus stop. If no adult is present, the driver will return the student to school and the parent or designated emergency person will be contacted to pick the student up at school.

Students will be dropped off at the location specified unless otherwise notified by either a note or a telephone call. Students can be dropped off at different locations other than the one specified, only if it does not take the bus a greater distance out of the way and delay the drop off of other students, thereby causing a concern for other parents.
